NAPEBT: Detailed Report – 2010 through 2020
NAPEBT Detailed Report 2010 – 2020

When Segal began a consulting relationship with NAPEBT in 1993, Segal assisted in the formation of the Trust and with the various insured benefit programs offered by the Trust. In 2005, Segal began discussing with the Trustees the option of self-funding the medical plan and adding two additional medical plan options. Based on Segal’s analysis and recommendations the Trust began self-funding in 2006 and introduced the new plan designs in 2007. With Segal’s close partnership and careful review of the medical plan and funding, and careful review of the other health and welfare plans and administration, the Trust has remained a strong viable program.

Our accomplishments over the years include:

> Senior consultant attendance at regularly scheduled and Special Board meetings regardless of agenda topics. Segal does not hand off assignments to junior level consultants to manage client relationships. We strongly believe that we are hired by our clients because of our senior level advice in all aspects of the consulting relationship.

> Attendance at the annual two-day NAPEBT retreat and other meetings, as needed, by two credentialed actuaries, Nura Patani, PhD, ASA, MAAA Melissa Krumholz, FSA, MAAA and Amy Girardo, the Trust’s consultant, to present survey, local benchmark and trend data, discuss reserving and plan design changes, and provide live modeling of various design, contribution, and reserving strategies.

> Draft meeting agendas and meeting minutes until October 2016 when the Trust Administrator began assuming this duty.

> Conduct separate Trustee interviews of each participating employer of the Trust including the non-voting employers and preparation of the summary report of the results.

> Preparation of the monthly contribution, claims, and expenses report.

> Work with the vendors to ensure accurate and consistent reporting (e.g., retiree status, paid basis).

> Annual preparation and presentation of the Segal Explorer Utilization report.

> Annual preparation of the Incurred But Not Reported (IBNR) reserve certification for medical and pharmacy.

> Compliance assistance (available on a daily basis) including: answering questions asked by benefits staff from each of the six NAPEBT employers; compliance updates/presentations during Trust Board meetings; providing advice to Trustees and benefits staff promptly, accurately, and directly regarding applicable or changing legal requirements governing benefit plan design, funding, communications, required notifications, and reporting, (particularly those related to self-funded or public sector plans), and providing a concise summary of the legal requirements and any required actions to remain in compliance.

> Preparation and/or review of plan documents or other legal documents to ensure compliance with policies, procedures, and other legal requirements pertaining to public sector employee benefit programs, including Section 125 cafeteria benefit plans.
NAPEBT Detailed Report 2010 – 2020

- Drafting and provision of notices including: Important Plan Information, HIPAA Privacy Notice, Mental Health Parity Opt Out Notice (when applicable) and Medicare Part D Notice.
